PARISH CENSUS. Due to the General Data Protection Regulations which came into force in May 2018 the parish is obliged to protect details of all parishioners, especially of how we share information. We have been working with the team in the Archdiocese which has provided training, and assistance and has created a safe database on which parishioners' details will be stored. **Please would every parish household fill in a census form** which will provide the parish with up to date information, and, additionally, give, or refuse, permission for your details to be shared within the parish for parish activities? Each form has room for 4 family members. If you have more members please use an additional form. Census forms may be returned using the postbox in the narthex. Thank you all for your help with this large task.
